## PRICES OF STOCKS **SCORED A RECOVERY**

Day Ended With Stocks at About Top Level and Steady.

A MORE CHEERFUL FEELING

There was None of the Urgent Pressure to Sell Manifest on Monday. Bonds Were Dull But Steady.

NEW YORK. May 29.—Prices of stocks scored quite a substantial recovery today and ended the day pretty near the top level and steady. There was a much more cheerful feeling with regard to the outlook for value and none of the rather urgent pressure to sell, which was a feature yesterday. The sharp and sudden declines among high-priced, but seldom active stocks, gave place to equally sudden recoveries in the same securities. International Power recovered 5 points of its 18 point break of yesterday, and there were wide gains scored by the Electric and Epress stocks, which were notable sufferers yesterday. There was not much news on which to base the rise. Sentiment was favorably affected by the large absorption of United States Steel at rising prices. This soothed the anxielles which were caused by yesterday's rumors that a formidable bear party had been formed in the stock conversion and bond issue plan. The notable strength of Canadian Pacific and its subsidiary roads, Minneapolis, St. Paul and Sault Ste. Marie and Duluth, South Shore and Atlantic, also had a notable sympathetic effect on the whole market. This movement began abroad before the opening here and was not explained by any specific news. London was a buyer on a considerable scale after the holiday there, and confident predictions were ficard that peace would be declared at an early day in South Africa. The tormal announcement of the terms for the taking over jointly by Louisville and Nashville and Southern Railway of the Chicago, Indianapolis and Louisville stocks in return for 4 per cent, bonds was chiefly reflected in the price of Louisville. The terms of exchange of the stock of 75 for the common and 90 for the preferred led to some recession in their prices, as the joint bonds, judged by the precedent of the Burlington exchanged bonds, are not likely to command a full par value. The presence in the Wall Street district of Secretary Easley, of the Civic Federation, and his consultation with impertant representatives of the anthractic interests, ga with important representatives of the anthractic interests, gave rise to conjectures that measures were in progress for the settlement of the anthracite miners' strike. Wall Street opinions remain confident that a settlement lies within reach at almost any time. There was also much less apprehension to-day of a spread of the labor trouble into the bituminous coal fields, which was considered a formidable prospect yesterday. Sugar was helped by the reports of an agreement upon a Cuban reciprocity measure, and Amalgamated Copper was firm on the better conditions reported in the copper trade. The market closed quiet and steady.

Bonds were dull, but about steady. Total sales, par value, \$2,419,000, United States refunding 2's and new 4's were 1/4 per cent, lower on the last call.

The total sales of stocks for the day were 508,498 shares.

NEW YORK. May 20.—The cotton market opened steady with prices 5 points higher to 1 point lower, following which there was a sharp break under realizing by room longs and pressure from Wall Street bear interests. The early stability was in keeping with a better class of Liverpool cubies than expected, light receipts throughout the beit and reports that spot cotton South was in better demand at improving prices. Claims that the recent rains South had done great good and that clearing weather was now in store, combined with weak late Liverpool cables helped to force the market back. But later it became clear to all that the demand from spot cotton houses, exporters and new England spinners for the immediate positions was growing and that a formidable short account remained unprotected helped to encourage buying for a turn. As the afternoon progressed, prices crept steadily upward and sentiment gained in buillish intensity. The Southern spot markets were reported as ateady and generally unchanged, while the local spot market gained 1-16c. Good reports as to the financial status of the New England mills, more peace rumors from London, a firmer stock market and light estimates for to-morrow's receipts at leading points proved more than an offset for a bearlish weekly crop and weather report from Washington. The market at the close was steady in tone and net 1@13 points higher.

CHICAGO MARKET.

CHICAGO, ILL... May 20.—Corn took the lead in grain speculation late to-day and relieved the session from the dull, hot weather monotony that has prevalled for several days. At the opening of the markets weather reports were so favorable that the crowd still inclined to the recent bearish view. But a good bulge came when it was apparent that the much-talked-of increases in corn receipts were not to materialize at once. Other grains worked up in sympathy and July wheat closed ½c. up; July corn ¾ @ %c. higher, and July oats ½c. higher. Provisions lacked tone and closed 2½ @5 to 7½c. lower.

LONDON HOPES FOR PEACE

And That Makes a Better Market There Canadian Pacific Led in the Advance Yesterday, Gaining Nearly 4 Points.

All the news received by the stock tradrs yesterday was of a favorable character and the market had a pronounced acter and the market had a pronounced advance. It was said that there was no probability of the bituminous coal miners joining the anthracite miners in the strike, and it was also said that the anthracite strike would be of short duration. This, of course, was mere surmise, yet the market has had a period of low prices and the time had come for a reaction, so that any sort of favorable report was employed to put the prices up. If there should be bad news to-day the probability is that prices would go down again. In addition to the news from the strike yesterday, there was news from London concerning the war in South Africa. Cables were received from that city predicting that the Boers would accept the terms of peace offered them, and color was given to the report in a sharp advance in the price of Kaffirs.

ANOTHER HELP.

The market was also helped by a sharp advance in the price of Canadian Pacific, which gained nearly 4 per cent. on the day's transaction. The stock was quite active, and it was said that Mr. J. J. Hill acquired a considerable interest. It was also stated on Monteral authority that the company had soid a block of land in the Northwest for \$1,600,000, and that total sales of land during the last month amounted to more than \$2,000,000.

The market started off well yesterday with higher cables from London, and there was an advance all along the line Louisville and Nashvile, which had sold on the day before at 136½, went up to 141. Union Pacific was strong and active, going up above 104, while there was also an advance in St. Paul, Pennsylvania, New York Central and Atchison of 1 per cent. and more.

The Steel stocks were in very much better demand, and a house with prominent Chicago connections took between 15,000 and 20,000 shares of the common at 40. The preferred was again above 90. The coal strike has had the effect of helping the money market, and money was easy yesterday, the average for the day's loans being between 4 and 445 per cent. The bouoyancy of the market became more pronounced duri advance. It was said that there was no probability of the bituminous coal miners

Corporal O'Brien Excused Until He Can Produce Samples.

(By Associated Press.)
WASHINGTON, May 20.—Corporal Richard O'Brien was again on the witness stand to-day when the Senate Committe on the Philippines met, but he added very little to what he had said

of which he nad spoken yesterday, intimating that they were explosives. He said he had sent to Massachusetts for the bullets, but that they had not yet arrived. He was questioned in regard to the minute appearance of wounds which he said had been produced by the explosive bullets. He said that one of the men killed at LaNog, when they were advancing toward the American soldiers with a flag of truce, had the entire top of his head shot off, while the other's abdomen was split open. In the latter case the bullet had first entered the abdomen and then passed through one of the man's arms, there being a smooth hole where the ball entered the arm and a large one where it left it. In reply to questions from Senators Beveridge and Culberson, the witness said he had not been very close to the bodies when he saw the wounds, nor could he explain how a ball might have

could he explain how a ball might have exploded in the abdomen of one of the victims and again in his arm. "Nor do I think any one else could," remarked Senator Beveridge.

O'Brien also admitted in answer to questions from Senator Deitrich that the firing was indiscriminate, and the two ween with the white flars might have men with the white flags might have been killed by bullets from guns in the hands of others than the soldiers. He

said he knew of no experiments with explosive bullets. Mr. Patterson took occasion to his disbelief in the theory that the American soldiers had been supplied with other than proper bullets, and other members of the committee endorsed the

The witness then was excused until he could secure the sample bullets.
Senator Lodge said he had received a telegram from Captain McDonald, and would immediately subpoena him as a witness in view of O'Brien's testimony.

THEREON, SITUATED A SHORT DISTANCE BEYOND THE CITY LIMITS ON THE BROOK TURNPIKE.

In execution of a deed of trust, dated March 3, 1886, and duly recorded in Henrico County Court, in Deed Book 117, page 177, I will, at the request of the beneficiary, there having been default in the payment of a portion of the debt secured, sell by public auction, on the premises, on MONDAY, MAY 26, 1992.

at 4:30 o'clock P. M., that VALUABLE SUBURBAN ACREAGE PROPERTY, known as the "LEONARD CHAMBER-LAIN TRACT." containing about twelve acres, with a good dwelling and other improvements thereon.

The land lies beautifully on the east side of the turnpike, is in a good state of cultivation, and by reason of its nearness to the city and being on an excellent road, it is bound to increase in value and desirability. Don't forget the trolley cars to run shortly on the pike.

TERMS—Cash sufficient to pay the costs of executing the trust, all taxes to the day of sale, and a debt for \$2,000, with interest thereon from August 12, 1899; and the residue upon terms to be announced at the time of sale.

A Large and Valuable MANUFACTURING SITE. on Brook Turnpike, Very Close to the S. A. L. Ry.

By Auction.

I will sell, by public auction, on the premises, on THURSDAY, MAY 22, 1902, at 5 o'clock P. M., A LARGE BLOCK OF LAND. Stuated on the east side of Brook Turnpike. close to and just north of the S. A. L. Ry. CONTAINING ABOUT \$2,000 SQUARE FEET. In view of the scarcity of manufacturing sites, the nearness of this one to a most important line of rallway, and the increasing demand, this offering presents an opportunity for securing a piece of land well adapted in size and location for manufacturing purposes; and even speculators would not go amiss in buying this property in order to meet a certain future demand, which cannot be long postponed.

TERMS—Liberal, and at sale.
